Le Sentier des Grands Prés

The Grands Pres pathway

Un lézard qui ne pond pas d'œufs, une petite plante carnivore aux feuilles gluantes, des tours végétales...

Le monde que vous allez découvrir n'est pas ordinaire et vous passionnera !

A lizard which does not lay eggs, a small insectivorous plant with sticky leaves, towers of vegetation... The world you are about to discover is not just an ordinary one and it will most certainly fascinate you.

Un petit lézard, nommé vivipare, vous accompagne sur le sentier. Ce sentier comporte deux boucles dont l'une est accessible aux personnes à mobilité réduite.

A small lizard called viviparous will accompany you along the footpath. This path offers two routes, one of which is accessible to disabled people.

Terres de pâture au début du XX^{ème} siècle dont témoignent encore les murets de pierres sèches, la mise en eau du lac en 1969, transforme peu à peu ces terres en prairies humides. Les troupeaux de bovins laissent alors place à une flore et une faune remarquables, devenues précieuses de nos jours. Venez découvrir les richesses du domaine des Grands Prés !

The small dry-stone walls are a reminder of the pastures from the beginning of the 20th century which slowly turned into damp, wet meadows when the lake was filled up in 1969. Cattle herds then gave way to remarkable wildlife and plants which have become invaluable today. Come and discover the wealth of the "Grand Prés" estate.
